

Decking & Railing

The Look and Feel of Real Wood Comes at a Price

- Wood is expensive and requires on-going, costly maintenance.
- The family deck has to be stained and water-proofed with toxic chemicals.
- The wooden siding needs an expensive paint job every few years.
- Wooden fencing requires constant repair, and time-consuming paint jobs to keep up appearances.
- Real wood accents add to the cost of any home improvement or new construction.
- You have less time to enjoy your family and your home because your exterior wood always needs something.
- The planet suffers as more wood is harvested to meet the ever-growing demand for natural-looking wood.

NewTechWood uses select, recycled, high-density plastics, combined with recycled wood products, to create a composite wood substitute that drops your energy footprint to zero. NewTechWood is made from recycled materials, and it's 100% recyclable down the line.

When you want the look of real wood, but you don't want the headaches of maintaining that beautiful façade, NewTechWood solves the problem.

NewTechWood with **Naturale** lasts longer, requires less maintenance, and it puts recycled materials to good use creating the natural look of wood without all the work.

What Makes NewTechWood the Smart Green Choice?

All NewTechWood products are produced using 95% recycled materials including plastic bottles, reclaimed wood fibers, and other products that would normally end up in a landfill.

NewTechWood undertakes annual, third-party audits to assure compliance with environmental, health, and safety regulations and guidelines – a demonstration of our commitment to a greener alternative to wood building products that deplete the planet's resources.

NewTechWood shrinks your home's carbon footprint by using recycled materials constructed to be recycled again in the future.

NewTechWood conserves home energy use.

NewTechWood's UltraShield® : The Look of Wood Without the Worry

Using its patent-pending process, called **Naturale**™, **UltraShield**® delivers convenience, reliability, and a realistic texture that, not only makes your life better, all NewTechWood products combine the proven strength of high-density, recycled plastic with realistic wood fibers to deliver the look of **Naturale**™ wood; the look you demand.

UltraShield® : Ultra-Simple

UltraShield® is enclosed in an impermeable seal so your **UltraShield**® deck or home siding stands up to weather, sun, water, scuffs and scrapes. Your home looks good down the line because, with **UltraShield**®, durability is built in.

The UltraShield® Comprehensive Warranty

It's really simple.

Our **UltraShield**® decking is backed by the most comprehensive warranty in the industry.

NewTechWood stands behind its products, backed by a 25-year limited, transferable warranty. We are so confident in the quality of our decking that we'll refund the cost or replace the decking if it underperforms.

That's really simple, so you have nothing to lose.

UltraShield® DECKING BOARDS

What's YOUR Choice?

Available in solid and hollow profiles for both residential and commercial applications, **UltraShield®** from NewTechWood delivers attractive good looks and durability to handle the heaviest traffic.

All **UltraShield®** decking is wrapped 360 degrees – including the grooves - for even greater durability!

Our solid, square-edge decking installs using US07 composite screws, while all other options employ hidden fasteners for quick, secure installation.

Decking Boards

US07
138 x 22.5 mm (5.5 x 0.9 in)

US01
138 x 22.5 mm (5.5 x 0.9 in)

UH02
138 x 22.5 mm (5.5 x 0.9 in)

UH22
210 x 22.5 mm (8.3 x 0.9 in)

Decking Accessories

Install the NewTechWood US07 square-edge, solid boards using composite screws. For our other deck profiles, use our quick and secure hidden fastener system.

138 x 15 mm (5.5 x 0.6 in)

US03
180 x 15 mm (7.0 x 0.6 in)

US05
285 x 15 mm (11 x 0.6 in)

Decking Accessories

NewTechWood decking is super-simple to install.

Your NewTechWood deck expands and contracts under various weather conditions without creating wear and tear on individual planks using our easy to install clip systems that keep your deck looking its best for years to come.

Install it once, and forget it.

TC-2

TC-10

Using a system of locking clips, NewTechWood installs quickly, but more than that, our proprietary controlled expansion and contraction clip eliminates warping, or any distortion of our industrial strength planking, providing decking that lasts for years with simple, easy maintenance.

	
TC-2 (CEC Clip)	TC-10 (Locking Clip)

Starting Clip

Setting the first board is easy using NewTechWood's MG-3 Starting clip. They're invisible, easy to install, and these clips last and last so you don't have to worry or fuss over your new installation.

MG-3

End Caps

When you employ our lightweight, hollow core decking, these end caps finish the job, creating a clean, **Naturale** look that's guaranteed to last for years to come.

End Caps

NewTechWood Decking Repair Kit

Use this simple repair kit to clean up end caps, dents, nail holes, scratches, and other blemishes.

Colors: maple, teak, ipe, walnut, redwood, antique, light gray, charcoal, smoke white

Each repair kit comes complete with two 10cm wax sticks plus an easy-to-use applicator to finish any job with professionally-installed good looks.

NewTechWood Composite Screws #304

These industry standard screws are ideal for finishing start and end planks, fascia, and stair treads.

Colors: teak, ipe, walnut, light gray, antique

100 #8 screws plus #2 drive bit included

NewTechWood Shim

Level up uneven ground under joists.

The ideal replacement for conventional joist gapping filler like stone or wood.

Perfect for shimming decking, home siding, and even window installations so your NewTechWood project looks beautifully finished – an asset to any home or commercial space.

Pedestals

Pedestals make for a great replacement for stone or wood gap fillers, and can be used for shimming decking, home siding, or for use in window installations. These make for a great asset for your home or commercial projects.

HYBRID COMPOSITE RAILING

Railing Security and Stylish Good Looks

NewTechWood delivers a simple, clean railing design to complete your new deck.

Nature™ technology assures long-lasting durability under the most demanding conditions.

Choose railing in charcoal, teak, walnut or mirage gray – only from NewTechWood.

All NewTechWood products assure reliable color consistency across the entire project.

Installation is quick, easy, and done with a patent-pending bracket system.

NewTechWood adds a level of security to your deck, porch or any elevated structure. Built to last. Built for security.
